

Dear Parents:

Our school has chosen to use Compass Learning Odyssey®, a Web-based curriculum, to enhance your child's educational experience. Your child may work on math or reading skills set to their individual ability level anywhere they can get on the internet. Compass is a great way to work on improving skills in math and reading. This resource will also be available all summer as well and is a great way to keep up skills over break.

In order to proceed successfully with your home use, the workstation must be properly set up, including browser and plug-in installation. This document is designed to help you and your child get off to a good start by providing the information necessary to complete the workstation setup. Online resources can be accessed when you click Help in the student portfolio.

### Workstation Setup

To ensure that a workstation is properly set up to run the Compass Learning Odyssey program, you will need to verify that all minimum software requirements are met. A requirements list is available by clicking the System Requirements button on the Compass Learning Odyssey home page. The system check option provides assistance in this effort by checking the operating system, browser version, specific browser settings, and plug-ins. Click the Check System button on the Compass Learning Odyssey home page to start the system check. You can easily see which requirements have not yet been met and access the appropriate Web sites via the links provided.

### Support Information

For additional assistance in setting up your systems, refer to our Support page at [https://www.thelearningodyssey.com/LoginContent/system\\_requirements\\_workstation.pdf](https://www.thelearningodyssey.com/LoginContent/system_requirements_workstation.pdf) or contact your school technical personnel. You may also email Compass Learning Customer Support at [support@compasslearning.com](mailto:support@compasslearning.com) or on the web at <http://www.compasslearning.com/customer-support>.

Odyssey login address: <http://www.compasslearningodyssey.com>

Child's login is **Student ID # for username and password**. The school is **Kenosha**.
